

Open position for a doctoral researcher

The Department of Pharmaceutical and Pharmacological Sciences of the Vrije Universiteit Brussel (VUB) is looking for a motivated doctoral researcher to support its experimental hepatology and *in vitro* toxicology research.

Job description

- o You will perform cell cultivation experiments and molecular biology analyses.
- o Your scientific work should result in several manuscripts published in international peer-reviewed journals and a PhD thesis in pharmaceutical sciences.
- o You will assist in the organization of practical courses for students in bachelor and master in pharmaceutical sciences.

Profile

- o You have a master degree in pharmaceutical sciences, (bio)chemistry, biotechnology, (bio)medical sciences, bioengineering sciences or equivalent.
- o You are a dynamic and flexible person.
- o You are able to work independently, yet as a team member, and accurately.
- o You have excellent presentation and communication skills both written and oral.
- o You have a good knowledge of the English language both written and oral.

Offer

- o A young, dynamic and stimulating work environment.
- o A yearly renewable contract as a full-time doctoral researcher at the VUB for 4 years.
- o Start date: 1 October 2024.
